FF Amman Serif

by Yanone

QUITE SIMPLY, WE LOVE TYPE AND TYPOGRAPHY.

Back in 1990, Erik Spiekermann and Neville Brody wanted to build a foundry where type was designed by designers, a place where type designers were given a fair and friendly of magic was made. From the very beginning, we wanted to bend the rules and test typography to build a library with a collection like no other; a range of typefaces that had different purposes, that was **contemporary, experimental, unorthodox, and radical**. Fast-forward 25 years later and we are now one of the leading independent font foundries with the largest original, contemporary typefaces. At the heart of what we do is a heady mix of intuition, sprinkling of serendipity, an eye for detail, and a dash of attitude. From the first ever FF Beowolf to the release of our Web FontFonts in 2010, we place creativity at the forefront.
